

COMPLETE EXHAUST SYSTEM CLEANER

PRODUCT OVERVIEW

Complete Exhaust System Cleaner is a specially designed high-capacity cleaner made to dissolve dirt, varnish, rubber and carbon residue throughout the entire exhaust system primarily in the catalytic converter, turbocharger, EGR valve and lambda probe, sustainably and effectively. Complies with the latest environmental requirements. Protects against heavy soiling during regular use, increases the fuel efficiency, optimizes engine performance and ensures proper functioning of the catalytic converter / lambda probe.

APPLICATION

For use in all petrol and diesel engines and hybrid vehicles. Recommended use in vehicles that did not pass the emissions test (part of the main investigation) due to excessive exhaust emissions.

DIRECTIONS

Add regularly every 3-4 months into the fuel tank. Observe mixing ratio (1:200). 375 ml treats up to 80 litres of fuel.

TECHNICAL DATA

Physical state: Liquid

Odour: Characteristic

Flashpoint: ~70 °C DIN EN ISO 2719

Density at 68 °F: 0,88 g/cm³ DIN 51757

Water Resistant

IDENTIFICATION

ID	Size	Case Qty
PWT1180	375ml	28
