

COMPLETE DIESEL SYSTEM CLEANER

PRODUCT OVERVIEW

Complete Diesel System Cleaner has been specifically developed for all high pressure direct injection diesel engines with common rail or pump injector. This high tech product has been developed from extensive research and designed to meet the exact requirements of the modern diesel system, especially recommended for extended service intervals. Exceeds the requirements of DIN EN ISO 12156-1 (HFRR test).

- Provides for optimum atomisation and fuel efficiency
- Guarantees total lubrication of the whole system especially in the high pressure pump
- Eradicates water bubbles in the fuel and absorbs dangerous moisture

APPLICATION

For use in diesel powered engines with either common rail or pump-injector systems. Recommended for engines with particle filter, turbo and catalytic converter.

DIRECTIONS

Pour directly into the tank or apply via special cleaning equipment. 375ml treats up to 80 litres of diesel. Mixing ratio: 1:200.

TECHNICAL DATA

Physical state: Liquid

Odour: Aromatic

Initial boiling point and boiling range: 200 - 210 °C

Flashpoint: 45 °C

Lower explosion limit: > 0,6 Vol.-%

Upper explosion limit: > 7,0 Vol.-%

Ignition temperature: > 200 °C

Vapour pressure (at 68 °F): > 8 hPa

Density at 68 °F: 0.824 - 0.9

IDENTIFICATION

ID	Size	Case Qty
PWT2101	375ml	28
