

VALVE AND INJECTOR CLEANER

PRODUCT OVERVIEW

Valve and Injector Cleaner for use in the fuel system of petrol engines equipped with carburettor, fuel injection, direct injection (FSI, GDI,...) catalytic converter or turbocharger. Effectively removes carbon deposits from the fuel injection system, valves, intake and combustion.

- Removes crust and coking from injection systems
- Cleans inlet valves and injection nozzles
- Prevents rough running of the engine, power loss and start problems
- Fuel consumption and exhaust gas emissions will be reduced
- Protects and extends engine life

APPLICATION

For all petrol engines with carburettor, injection, direct injection (FSI, GDI, ...) and catalytic converters.

DIRECTIONS

Add regularly every 3-4 months into the fuel tank. Observe mixing ratio (1:200). 375 ml treats up to 80 litres of petrol.

IDENTIFICATION

ID	Size	Case Qty
PWT2233	375ml	28
