

## HIGH PRESSURE LUBE NANO-TEC

### PRODUCT OVERVIEW

High Pressure Lube Nano-Tec is a multipurpose lubricant ideal for use under high-pressure conditions that forms a highly effective NANO anti-friction barrier between moving parts. This barrier is created by specially formulated NANO-clusters which have extreme wear and tear protection properties.

- Water-repellent
- Displaces moisture
- Protects against wear and tear
- Highly adhesive
- Extends life-span of treated parts
- Excellent "run-dry" properties

### APPLICATION

For chains, ropes, rolls, bearings, chain inner bearings, gearwheels, worm gears, joints, clutches, wire ropes, hinges, o-rings, bowden cables, locks etc.

### DIRECTIONS

Shake well before use! Thoroughly clean the parts to be treated.  
Spray evenly onto the parts to be treated.

### IDENTIFICATION

ID	Size	Case Qty
PWT2971	500ml	12
