

DPF SUPER CLEAN

PRODUCT OVERVIEW

DPF Super Clean is the most economical way to clean and protect the particulate filter. This high powered special diesel additive solution is used as a regeneration aid for the diesel particulate filter system and can be used in all diesel engines and mixed with all diesel fuels.

- Permanent and complete filter cleaning during vehicle operation
- No assembling or disassembling, no standing time, trouble free
- Reduces ignition temperature of the soot collected in the diesel particle filter
- No formation of secondary emissions

APPLICATION

Suitable for all diesel engines with particle filter, can be mixed with all diesel fuels

DIRECTIONS

Please pay attention to the dosage instructions! Add to the tank before filling up with diesel fuel. 375 ml is sufficient for 40 to 80 litres of diesel fuel. We recommend regular use once every 3 months. Attention, do not add more than the recommended amount!

TECHNICAL DATA

Physical state: liquid

Colour: clear/colourless

Odour: aromatic

Flashpoint: 62 °C

Ignition temperature: > 200 °C

Vapour pressure (at 68 °F): 20 hPa

Density at 68 °F: 0.78-0.82 g/cm³

Water resistant

IDENTIFICATION

ID	Size	Case Qty
PWT6171	375ml	28
